

to Africa will cost the taxpayers nearly \$100 million.

Madam Speaker, no one here questions the need for security for our Commander in Chief, but we do question the need for such expensive trips when so many folks across the country are being forced to cut back because Congress can't get its act together. A trip of this magnitude isn't unusual, but these are hard times. \$100 million could be better used to keep folks on the job.

I urge the President and everyone at the Federal level to lead by example and not take the fact that Congress can't get its act together and rub that in the faces of hardworking Americans.

FBI USES DRONES DOMESTICALLY TO PEEP ON AMERICANS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Madam Speaker, recently we've learned that the NSA, what I call the "National Surveillance Agency," seized millions of phone records of Americans to try to find a few bad guys. Overreaching and unconstitutional, in my opinion, it violates the right of privacy.

FBI Director Mueller has now confirmed what many of us already believe, that the FBI has used drones domestically to peep on Americans. Who are they spying on? Do they have probable cause? Do they have a warrant from a judge? We don't know.

Madam Speaker, by 2030, there will be 30,000 drones cruising, filming, looking, spying, snooping, and hovering over America's sky. Congress needs to regulate drone use to protect the right of privacy and ensure the Fourth Amendment is actually protected.

Congresswoman LOFGREN and I have filed the Preserving American Privacy Act (PAPA) to make government snoops and private entities follow the Constitution in the use of drones. We must regulate lawful and unlawful drone use because drone laws are needed to keep the peeping tomcrats out of our business.

And that's just the way it is.

NO CHILD IN AMERICA SHOULD GO TO SCHOOL HUNGRY

(Ms. DUCKWORTH asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DUCKWORTH. Madam Speaker, the cuts we are considering to SNAP—\$20.5 billion—will be devastating for many American families. There is little room to cut this vital program. The average benefit is only \$4.50 a day, just \$1.50 a meal. These cuts will slash benefits to 2 million Americans and cut more than 200,000 children off the school lunch and school breakfast program.

This is a very personal issue for me. I was one of those children. After my

father lost his job for several years when I was a teenager, food stamps, school breakfast, and school lunch were the only things that saved me. They were there for me so I could worry about school instead of my empty stomach. They nourished me so I could develop the skills to serve my country for the next 20 years—all of the way here to Congress.

I believe that in the wealthiest Nation in the world, no American child should go to school hungry, and no parent should have to make the difficult decision between paying rent or paying for groceries.

Charities, like the Church of the Holy Spirit food pantry in Schaumburg, are already stretched to the limit, trying to meet the needs of our communities during these tough economic times. This means that hungry Americans will have nowhere else to turn.

I ask my colleagues to reject these draconian cuts.

CELEBRATING WEST VIRGINIA'S 150TH BIRTHDAY

(Mr. MCKINLEY asked and was given permission to address the House for 1 minute.)

Mr. MCKINLEY. Madam Speaker, today, the great State of West Virginia is celebrating its 150th year birthday.

The unique history of the Mountain State is a source of pride for all West Virginians. On this day in 1863, West Virginia entered the Union to become the 35th State. It is the only State born during that divisive War Between the States, and the only State formed by Presidential decree.

From these challenging years, our State has become a significant contributor to America's economy. West Virginia's natural resources—coal, oil, natural gas, and timber—have played an integral role in the industrialization of our country. Now, in addition to providing energy to continue fueling our Nation's economy, West Virginia has grown into a leader in health care, research, education, biotech, aerospace, and many other diverse industries.

The Mountain State's natural beauty also attracts people from all around the world to visit and enjoy its breathtaking scenery.

Madam Speaker, today West Virginia takes special pride in our wild and wonderful State. We celebrate our past and look forward to the future.

Happy birthday, West Virginia. Here's to the next 150 years.

SNAP ISN'T A HANDOUT; IT'S AN ASSIST

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Madam Speaker, I rise today on behalf of many Illinois residents and one in seven American families in opposing the \$20.5

billion cut to the Supplemental Nutrition Assistance Program in this year's FARRM Bill.

I have always believed that an America where we're in this together is much better than an America where we're on our own.

For 46 million low-income Americans, SNAP is a helping hand, and it's our Nation's most important antihunger program. It's also the most effective defense against the steep rise in extreme poverty in America. Between 1996 and 2011, SNAP kept more households with children out of extreme poverty than any other government program.

I have ended my participation in the SNAP challenge, where I lived on \$4.50 worth of food a day. While I merely participated in this as a challenge, I often thought about the many families for whom this is an everyday reality.

SNAP isn't a bailout. SNAP isn't a handout. SNAP is an assist. It's a bridge over troubled water, and there is still more we can do.

RECOGNIZING THE GIRLS EDINA GOLF TEAM FOR THEIR 2013 STATE GOLF TOURNAMENT WIN

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Madam Speaker, I want to recognize the achievements of the Edina High School girls golf team. This talented group of young ladies recently demonstrated extreme passion and dedication and intensity in a commanding win in this year's Minnesota State High School Golf Tournament.

The Edina girls team should be proud, not only for being named winners of this year's tournament, but also for having the lowest overall score in State tournament history. This now brings the Hornets' championship total to eight, the most ever in Minnesota.

These student athletes are great role models, and they're also setting themselves up to be a positive standard for all of their classmates.

Congratulations to the team, and congratulations to the coaches for their hard work and their dedication and for this year's big win.

Go Hornets.

PROPOSED CUTS TO THE SNAP PROGRAM

(Mr. FOSTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FOSTER. Madam Speaker, today I rise to speak out against the drastic cuts proposed to the SNAP program, a lifeline that millions of Americans rely on.

The FARRM Bill being debated today would cut over \$20 billion over 10 years from SNAP, a program that ensures that children, seniors, and families struggling to make ends meet don't have to go without food.
